

1. 进入 Web of Science

选择 SCIE/SCI 均可

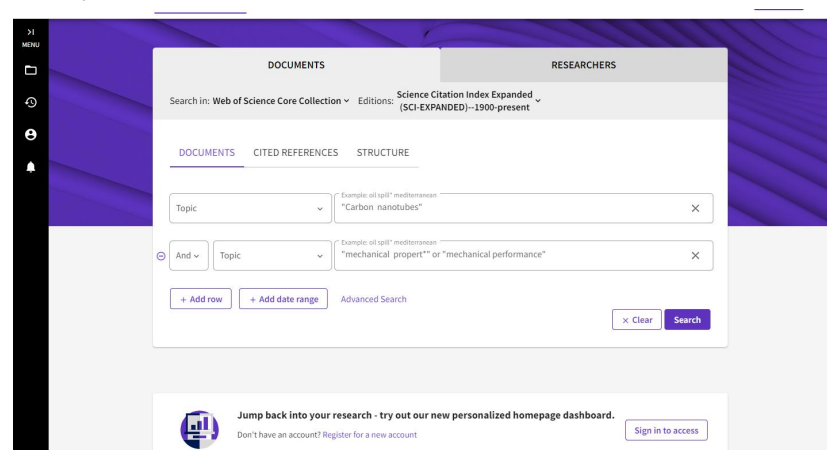

常用数据库列表

ACS	AIAA	ASME
AIP	EBSCO	EI
Janes	IOP	IEEE Xplore
MaThSciNet	Nature	PQDD全文库
Science online	Elsevier	Springer Link
SCIE	SSCI	SciFinder
Wiley Online Library	中国知网	读秀学术搜索
万方论文库	北大法宝	新东方多媒体学习库

2. Edition 选择两个核心数据库

3. Topic 输入要搜索的内容（英文）

4. 常见的搜索技巧

(1) 检索运算符

运算符	说明	示例
AND	查找包含被该运算符分开的所有检索词的记录。 在大多数字段输入两个或两个以上相邻的检索词时，我们的产品会使用隐含的 AND。	Beverage AND bottle AND beer rainbow trout fish farm 等同于 rainbow AND trout AND fish AND farm
OR	查找包含被该运算符分开的任何检索词的记录。	Beverage OR bottle 查找包含 beverage 或 bottle (或同时包含二者) 检索词的记录。
NOT	将包含特定检索词的记录从检索结果中排除	Beverage NOT bottle 查找包含 beverage 但不包含 bottle 的记录

(2) 截词符

•星号 (*) 表示任何字符组，包括空字符。

例如，输入comput*，可检索出computer, computerized, computation, computational.....

例如，color* 可查找包含单词 color、colors 和 colorful 的记录，但不查找 colour、colours 和 colourful。

•问号 (?) 表示任意一个字符。

问号 (?) 对于检索最后一个字符不确定的作者姓氏非常有用。

例如，Barthold?可查找 Bartholdi 和 Bartholdy，但不会查找 Barthod。

wom?n 匹配: woman women

•美元符号 (\$) 表示零或一个字符。

美元符号 (\$) 对于查找同一单词的英国拼写和美国拼写非常有用。

例如，flavo\$r 可查找 flavor 和 flavour。

colo\$r 匹配: color colour

(3) 双引号

精确的词组检索，须用引号限定

比如输入：“global warming”，则可找到准确词组global warming，
如输入：global warming，则默认为global and warming的逻辑关系。

5. 文献阅读

- (1) 1 处的 High Cited 代表着高引文献；Review Article 是综述类文献（回顾了前人的研究）
- (2) 2 处可以选择下拉菜单，按照 Citations: Highest First 排序
- (4) 阅读文献，需点击 3 处文献的题目
- (5) 下载文献，点击完题目后，进入下一页面，点击上方的 Full……，就可以跳转到文章出版社的界面，然后进行阅读（有的文章是付费的，可以跳过）

Abstract

Purpose The purpose of this paper is to establish the relationship between foreign participation in enterprises in Africa, their internationalization intensity and the associated moderating conditions.

Design/methodology/approach The study utilized data from the World Bank enterprise surveys in 46 African countries across seven years. The hypothesized relationships are estimated using the Heckman two-stage pooled cross-sectional model to correct for selection bias.

Findings The findings show that foreign participation in enterprises has a positive effect on internationalization intensity in Africa. While we observe this positive effect, we also found that there is a lot of heterogeneity that accompanies this effect based on enterprise size, financial performance and local market competition.
